

Chandra Prasad Timsina

Chandra Prasad Timsina worked the 35 days field research in two school of Dapcha, Kavre. and now am being engaged in the thesis writing. My work was suffered by the COVID-19 pandemic. After completing the 27 days field research, I had to finish field through the online. However, I completed the 35 days field research and felt the transformed the nature of the work differently. Now, I am planning to complete one level of the writing as I am in the end of the thesis chapter. I am currently working in the discussion and conclusion chapter. Probably, I might be able to send the first draft of my thesis to my supervisor within 15 days. My thesis topic is ICT for contextualized learning in school education. I am trying to explore the three-research question which might cover up the perception of the teacher, challenges of integrating ICT in school education, and way of contextualized learning in school using ICT. Currently, I am working in the system development project where I felt the contribution of this PAR research.

Towering for the Internet connection in Dapcha, Kavre

Cabling for the internet connection
