

Field Visit to Shree Janahit Secondary School with KU-Rupantaran and Norwegian Embassy Team

On 8 February 2023, the team from KU-Rupantaran (Roshani Rajbanshi and Nimesh Shrestha), the Norwegian Embassy (Yan Erik, Rajkumar Dhungana, and Saurav Karmacharya), and Kritisha Phaiju from Energize Project visited Shree Janahit Secondary School, Dapcha. The main objective of the visit was to overview the work done by the KU-Rupantaran and to link the food, climate, and education in the school education.

The field visit was facilitated by KU-Rupantaran where the team from the Embassy was more focused on the part of food, climate, and education. The whole team visited the ECD classrooms, School Gardening, and Mushroom, Pig, and Fish Farming. The Head Teacher, Ms. Teena Shilapakar also explained how the school curriculum is linked with the school gardening and farming. And she also explained about the Eco-San system that has been implemented in the school gardening.

The team from the embassy visited the overall project sites at Janahit School and linked organic farming to the food and climate cycle. Yan Erik explained Biochar in organic farming and showed how it works in school gardening. Everyone from the visit appreciated the work done by the KU-Rupantaran and the improvement of the school after the project and thanked the school head teacher for the excellent work.
