

STEAM Approaches to Education for Educators and Teachers

On 26 June 2023, NORHED-Rupantaran conducted a one-day workshop on STEAM approaches to education for educators and teachers of Shree Jahtteshwor Secondary School, Dhobi, Ramechhap. The main objective of the workshop was to circulate knowledge of STEAM education in the changing context of school education. Mr. Niroj Dahal and Mr. Nimesh Shrestha from KUSOED and Ms. Sita Kafle from Shree Janahit Secondary School, Dapcha conducted a session in STEAM workshop.

The sessions were based on the STEAM Education in the Changing Context of School Education, Innovative Approach and Designing STEAM Based Project and STEAM Based Activities and Teaching in School Education. The participants were from Ministry of Education, Government Officer of Dhobi, Members from SMC, Ward Chief, Teachers, and Guardians from Jhatteshwor School.

The participants were actively involved in the activities that were done during the sessions. Although STEAM was new to all the participants, they interacted and kept a debate on how teachers can implement STEAM education in classroom. After the discussion everyone concluded, and they can relate and interlink the STEAM in daily activities. Also, the teacher from Janahit clarified by sharing her experiences and by conducting the group activities based on Health and Food linking with STEAM. After the overall sessions, the team from KUSOED handover the educational resources to the school and the purpose of hand overing the educational resources is to support needy students in the school.
